

Sri A.S.N.M Govt. College(A), Palakol, W.G. Dt

Department of Physics

Every year December 14th is celebrated as National Energy conservation day in India. The Department of Physics Observed National Energy Conservation Day on 13-12-2024 in Sri Addepalli Satyanarayana Murthy Government College(A), Palakol, under the chairmanship of Principal Dr. T. Raja Rajeswari in Room no. 34. Principal addressed the students and staff and spoke about the importance of the day & Energy Conservation.

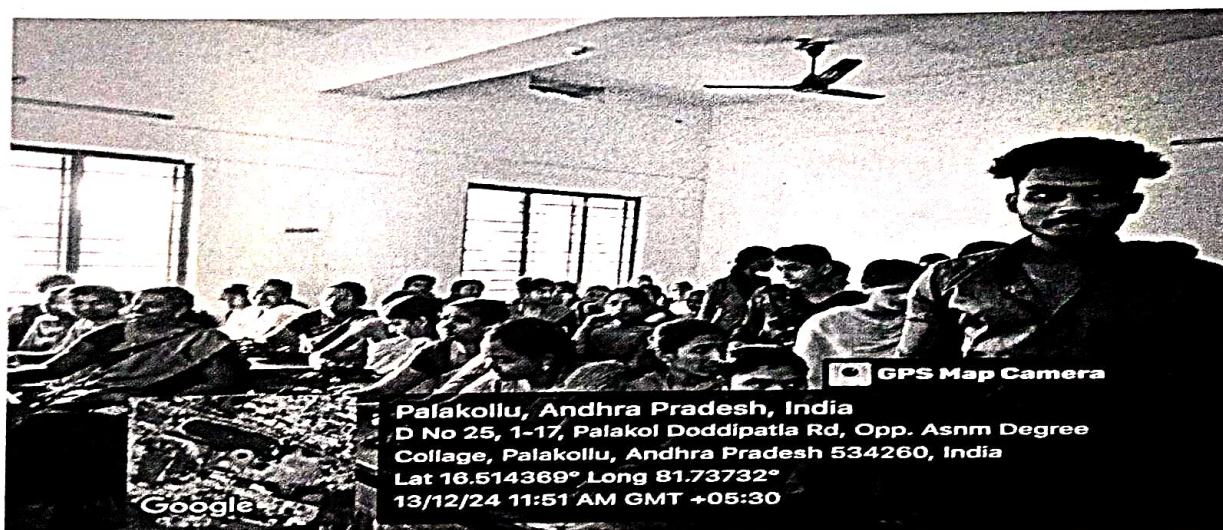

Sri T. Krishna Vice Principal addressed the students and explained the role of students in energy conservation and their responsibility in promoting energy conservation methods in their rural surroundings.

Sri B. Ramesh Kumar spoke about promoting energy conservation and sustainable practices.

He also explained about the 2024 theme “Powering Sustainability: Every Watt Counts” and its significance.

Later some of the science students spoke about different energy conservation methods.

Such programs spread awareness on energy efficiency, promote sustainable energy use, and support India's goal of achieving energy security. 15 teaching staff members and 45 students from arts and science groups participated in the program.
